Letter from Our Board of Directors' President Mr. John H. Christian, II

LCAA Celebrating 54 Years of Service 1966 - 2020

It is my pleasure and great honor to bring you greetings on behalf of the Board of Directors of Lake Community Action Agency, Inc. This year, 2020, we have been providing services to the children and families for 54 years. This year has been one of a great crisis, “The Pandemic of COVID-19”, for all the world but we have not lost our resolve for addressing the needs of the children and families nor the overall mission of “Helping People ~ Changing Lives.”

Let me commend my fellow board members for the adjustments they have made to make sure that the agency continued to receive the proper guidance and oversight; and to the staff, for staying focused and committed to the mission and goals of the agency, during this crucial period.

We will continue to partner with other agencies, state and federal resources as we continue to address the needs of our families during this pandemic, and to also help eliminate barriers that contribute to disadvantaged circumstances and bring about positive change in our neighborhoods, families, and the entire community of Lake County.

I solicit your continued support to the board and staff as we engage in this great challenge that deface us.

In His Service,

John H. Christian, II

Board Chairperson/President

“Continuing the Legacy – 54 Years, Helping People.....Changing Lives”

Fifty-four [54] years later and experiencing the worse pandemic of our lifetime, we still remain focused and at the forefront of fighting the “War on Poverty” here in Lake County. We are proud to still be a part of the great Community Action Movement that started with the “Economic Opportunity Act of 1964.”

In spite of the crisis “Pandemic” that we are still experiencing as we conclude and prepare for another year (2021), we are proud of the accomplishments that the agency has made toward some of the strategic goals for the next three year period.

We pause to say “thank you” to the board of directors, dedicated staff, volunteers, and community partners who still believe in the vision and mission of the agency. The staff has done an outstanding job and put their lives and families in danger to make sure that the children and families in Lake County continue to receive and access the services needed for them to survive these critical times. I personally take my “hat off” to each of them, but to remind them that we still have more to do before it is over.

We also pause to recognize the financial supporters and sponsors who have shown that they do care enough to share their financial resources.

We are still at the forefront when it comes to building partnerships and providing services to help people become self-sufficient. We continue to be successful because of our ability to build partnerships; they are the lifeline of Lake Community Action Agency. We salute all of our community partners and challenge each of them to stay in the fight with us as we, together, help change peoples’ lives.

It is vital that Lake Community Action Agency continue its legacy of “Helping People.....Changing Lives.” This is a challenge but we will remain steadfast in our resolve. Celebrate with us as we share our past accomplishments, but we still need your strong support as we forge ahead to help meet the needs of the many families that have and will be affected by this pandemic.

Thank you for allowing me to share 51 years of my life with this great movement called “Community Action.” Here is hoping we will be able to continue to build partnerships and provide services to the children and families into the future.

God bless Lake Community Action Agency.

Humbly Yours,

James H. Lowe, Certified Community Action Professional

About LCAA

Lake Community Action Agency, Inc. is a private non-profit corporation. The aim of LCAA is to stimulate a better focusing of all available local, State, private and federal resources upon the goal of enabling low-income families, senior citizens, and other individuals in rural and urban areas, to obtain the skills, knowledge, and motivation and secure the opportunities needed for them to become self-sufficient.

Our Mission Statement

Promoting self-sufficiency by reducing and eliminating barriers that contribute to the instances of poverty through a variety of programs to improve the standards of living.

Our Vision Statement

Lake Community Action Agency strives to become the premier agency in building partnerships that provide professional services to children and families

The Promise of Community Action

“Community Action Changes people’s lives, embodies the spirit of hope, improves communities, and makes America a better place to live. We care about the entire community, and we are dedicated to helping people help themselves and each other.”

2,015 households received assistance to help maintain Self-Sufficiency.

32 Individuals obtained employment from October 1, 2019 through September 30, 2020.

10 households received assistance for **Weatherization and Home Repair**.

1,664 services were administered through Agency-Wide **Family Self - Sufficiency Programs**.

Success Story: Cordell Mason by Sylvester Pringle

Cordell Mason is one of Lake Community Action Agency, Inc.'s success stories. Mr. Mason is a current High School graduate who had zero work experience as well as no ambition or motivation to apply or attend any College, Institution or Trade Schools.

Mr. Mason initially started with the Young Adults Program at the Career Source of Central Florida. A Lake Community Action Agency, Inc. Career Consultant received information and a request from a Career Source Young Adults Program staff member to assist and motivate Mr. Mason in his pursuit in finding a career in Health Care. The Career Consultant reached out to Mr. Mason via telephone to get started. The first contact was with Mr. Mason's mother in where she voiced her concerns of her son's lack of motivation to either register for college or get a full-time job. The Career Consultant requested to speak with Mr. Mason, upon speaking with Mr. Mason, the Career Consultant learned that Mr. Mason did indeed possess goals and ambition of becoming a Registered Nurse. He wanted to at some level, help others within the health care field. Mr. Mason expressed his interest in the health care field, wanting to receive Certification as a Patient Care Assistant as well as a Certified Nurse's Aide moving towards his ultimate goal of becoming a Registered Nurse.

Lake Community Action Agency, Inc.'s Career Consultant was able to set up an appointment with Mr. Mason to complete an assessment to see if he would qualify for Lake Community Action Agency Inc.'s Integrated Service Pilot Program (ISPP) for financial supportive services. Supportive services would include school tuition, supplies, uniforms and transportation while attending Southern Technical Institute located in Tavares, Florida. Mr. Mason would indeed qualify for the financial assistance.

Mr. Mason did however, lack self-motivation and confidence and needed direction in obtaining his goals. The Career Consultant explained to Mr. Mason several tips in sustaining these goals and the effort needed to successfully complete the Patient Care Assistant Program with Southern Technical Institution, minutes away from Mr. Mason's residence. The Career Consultant encouraged Mr. Mason to focus on the reasons he wanted his degree and to remember that the greatest efforts would bring the greatest rewards. The Consultant wanted Cordell to try not to be intimidated by the course work as well as the application process and to think about the fulfillment he may feel upon successful completion of the Program. And etc...

In completing the ISPP Program in which was created to provide opportunities to earn Certifications in various health care fields. Cordell was able to graduate from Southern Technical Institute as a Certified Nurse's Aide. Cordell was able to utilize the provided Supportive Services given by Lake Community Action Agency, Inc. with the cost for his college tuition, school supplies and his uniforms. The supportive services enabled Cordell to focus on completing the program with Southern Technical Institute by minimizing his financial restraints in which were beneficial in Cordell completing the Program successfully. Cordell was well motivated and was able to utilize his earned Certification in locating relatable employment. He was offered and accepted a job with Lady Lake Specialty Care in Lady Lake, Florida as Certified Nurse's Aide, earning \$11.00 an hours at 40 hours a week, with full Benefits. His start date was April, 1st, 2020. We as an organization are very proud of Cordell's accomplishments and finding his self-worth. We wish him Blessings in all future endeavors.

LAKE COMMUNITY ACTION AGENCY IS PROUD TO ANNOUNCE:

Lake Community Action Agency's Excellence Academy

The Excellence Academy offers students personalized learning options that work best for them, A State of Florida Choice School; it features a nationally accredited curriculum that supports all state requirements for high school graduation. ENERGY Services

Helping Families and Adjusting to COVID-19

The Energy Services Department continues to provide stellar services even in the midst of the COVID-19 Pandemic where service delivery presented several challenges, but several new opportunities to expand our online and email services along with drop-box services to our clients.

In addition, the department implemented a New Appointment System that allowed clients to schedule appointments for services with 3 options: **Automated, Live Operator and Online Scheduler** giving a wider range of access to acquire services. In the department's mission we are poised to provide a unique range of energy solutions to Residential & Commercial customers through sound energy saving technologies, energy efficiency processes and conservation programs,

Though our expanded services, The **LIHEAP Program** prevented the home energy crisis and restored home energy in over **1,113 homes** this year and part

of last year. Helping households avoid over **\$33,390** dollars in reconnect & late fees. The program is designed to assist eligible low-income households with their heating and cooling energy costs.

In our **Weatherization Program**, the department only weatherized 4 homes due to the pandemic and shutdown orders from DEO. However, over 12 individuals benefited from the Weatherization Program last year. The purpose of the Weatherization Assistance Program is to reduce the monthly energy burden on low-income households by improving the energy efficiency of the home and the health and safety of families. The Weatherization Program continues to be successful in creating jobs, and lower electric bills of struggling families in the communities we serve throughout Lake County.

The Energy Services Department experienced continued success in developing new revenue streams to expand existing programs through secured partnerships with our local municipalities in providing energy audits and construction management services to targeted areas of Mount Dora and recently with the City of Eustis. The total investment of the projects combined totals over **\$369,856** in energy efficiency upgrades and rehabilitation improvements in the targeted areas. The Energy Services Department will continue to secure vital programs and foster partnerships that will lead to significant investments in our local communities in Lake County. We are dedicated to creating more sustainable communities and creating jobs in the areas we serve.

SR/VPK Summary Report FY19 - 20 June 2020

The following is a summary of the educational services provided and progress that was demonstrated by the high-risk underserved low-income pre-school children ages 1 to 5 as a result of the Childcare services provided by the Lake Community Action. This program provided educational assistance to develop the following five areas of Learning and Child Development: Print Knowledge, Phonological Awareness, Oral Language / Vocabulary, and Mathematics.

The results of the initial assessment that was performed in October, 2019 show that in the area of Print Knowledge, 100% of the students tested were below expectations, 0% were meeting expectations, and 0% were exceeding expectations. In the area of Phonological Awareness, 60% of the students were below expectations, and 20% were meeting expectations and 20% of the students were exceeding expectations. In the areas of Oral Language and Vocabulary, 60% of the students tested were below expectations, 40% of the students were meeting expectations and 0% of the students were exceeding expectations. Finally, in the area of Mathematics, 100% of the students were below expectations, 0% of the students were meeting expectations, and 0% of the students were exceeding expectations.

The results of the second assessment performed in March of 2020 were as follows: In the area of Print Knowledge, 67 % of the students tested were below expectation, down from the 100%, which was a decrease of 33%. Of those tested 17% are meeting expectation, and 17% are now exceeding expectation, an increase of 17% in this area. In the area of Phonological Awareness, 17% of the students were below expectation, down from 60%, a decrease of 43% in this area. Of the students tested, 67% are now meeting expectation, up from 20%, an increase of 47%, and 17% of the students are exceeding expectation, down from 20%, a decrease of 3%. In the areas of Oral Language and Vocabulary, 0% of the students are below expectation, down from 60%, a decrease of 60%. Now 33% of the students are meeting expectations, down from 33%, a decrease of 7% and of the students tested 67% are exceeding expectations, up from 0% from previous testing, an increase of 67%.

Finally, in the area of Mathematics, 0% of the students were below expectation, and increase of 100%, from the previous testing, 67% of the students were now meeting expectations, up from 0%, from previous testing, an increase of 67% in this area and 33% of the students are exceeding expectation, an increase of 33%, up from 0% from the previous testing.

Due to the COVID-19 Pandemic, the third assessment that is normally performed in May of 2020 was canceled.

The impact of the program this year is that, the Lake Community Action Agency was able to offer Childcare services to 51 high-risk underserved low-income pre-school age children, ages 1 to 5 and provide the families of those children with wrap around services coupled with intense case-management to help them obtain a greater level of self-sufficiency. The objective of the program is to assist at-risk households with services that empower them to become economically-self-sufficiency by removing barriers that prevent self-sufficiency in achieving family stability (i.e. Early Childhood educational services, employment, housing).

We are finding more and more the high-risk underserved low-income pre-school age children are not receiving the educational services they need to prepare them for entering into Kindergarten, due to the fact that the parents of these children cannot afford the costs of the services being offered without some type of financial assistance.

Lake Community Action Agency

Community Partners Highlights: Mid Florida Homeless Coalition

They say it takes a village to raise a child. A village of eyes and ears, all looking and listening for opportunities to help the ones that are most vulnerable...the young lives that make up the next generation.

Well, it also takes a village to help bring success stories into the world of the ever growing homeless population. It takes a community. It takes all hands on deck. And each story is representative of a human life that has been given a second chance at success, at stability, and ultimately, at living

This recently came to pass for an 80 year old woman of whom was not only living in a campground, but was also suffering from many health issues. Because she was receiving services from a local church, they were able to contact Maria from Lake County Housing to go out and assess the situation. Her plight was discovered and next steps were able to be taken.

The baton was then passed to Mid Florida Homeless Coalition's outreach team.

Next, the outreach team connected with The Salvation Army. The Salvation Army agreed to put her safely in a hotel while proper housing could be arranged. A community of help was rising up to the meet the need. But before any of this could come to pass, the participant was transferred to the hospital due to her medical needs.

While there, Mid Florida Homeless Coalition stayed in close communication with the hospital to discuss housing needs and options. It was decided that a rehab facility was the best direction to go in order to attend to her health and long term needs. Hospital transportation was then set up to take her to the next step in her journey.

Finally, there was rest. Finally, there was hope. A human life was spared another night in the cold. She would be given space to heal and recover. And even though all the housing services were not needed for this individual, each organization stepped up and did their part and Mid Florida Homeless Coalition is celebrating the success story that followed!

Community Partners Highlights: Southern Christian Leadership Foundation [SCLF] located at The Coleman Enrichment Center 4606 Lime Street, Coleman, FL

January 20, 2020

MLK Jr Parade/March in Royal, FL

SCL Foundation partnered with Beverly Steele of the Young Performing Artists, Inc. to remember Dr. Martin L. King Jr Day. The citizens of Royal...one of the oldest African American municipals and state declared communities that was established with the 40 Acres and Mule in the 1860s...all gathered to march, remember and sing joyfully as the legacy of MLK Jr is still worth fighting for and celebrating

September 30 – October 2, 2020

Voter Registration Drive / Reentry Assistance / Census Drive

Opening with CDC advised guidelines in place, SCL Foundation got back to the business of helping the community at large. As we were in a time the voter rights and registration were deemed vitally important, the Foundation partnered with Carlyle Holder Ministries & Florida Rights and Restoration to assist the community with getting registered to vote and to complete the census. We also provided additional assistance to re-entry candidates looking to have their fines paid and rights restored to be able to participate in the 2020 General Election. We assisted all eligible in researching fines, registering to vote and signing up for legal counsel as needed to help them get on the right track of being a contributing member of their community. We were able to assist 50 residents and 25 Re-entry citizens during this drive.
